Chief, Aircraft Branch, D/I

Request for additional information on alleged sighting of Hook  
in East Germany

25X1A2g

1. Please query source reported in IR-2536-58 by 7050u [REDACTED]  
4 September 1958. The source allegedly sighted 14 MI-6 (HOOK)  
helicopters in East Germany. Attempt to ascertain source's reliability in identifying the MI-6 and in distinguishing it from the smaller  
MI-4 (Hound) helicopter.

2. Only two, possible three, Hooks have been sighted in the  
USSR. This office feels that the MI-6 is still in the prototype stage  
and is not in series production in the USSR. It is highly doubtful  
that 14 of the helicopters were sighted in East Germany and it is  
more probable that the helicopters sighted were Hounds.
